

SPRAYERS

FOR NURSERIES, GREENHOUSES & GROWING GROUNDS

Our horizontal cannon sprayers are popular for nurseries due to limited access rows. This allows for covering wide swaths of plants in one pass. Three different models are available to spray 50, 70, or 90 feet.

This unique sprayer was designed to produce a curtain of fog sized spray up to 90 feet. Our *Venturi Air Sprayers* feature the latest technology in concentrate spraying. Thus users achieve the following benefits: spray atomization of spray droplets are smaller and more uniform, less fill-ups, even distribution of concentrated spray, complete coverage, better product utilization and less chemical waste and soil/water contamination.

SPRAYERS BOOM / HANDGUN

High pressure pump for handgun and boom spraying

The **200 Gallon Sprayer** has a high volume and high pressure pump, best for multiple handgun use and with 20 and 28 foot booms. The simple design makes the sprayer easy to use. Recessed pump location allows close coupling to tractor and reduces angle of driveshaft. Tank is suspended from a heavy tubular frame to isolate it from vibration and stress. All these features, plus many more, add up to high value sprayers.

MODEL GN200D-23 WITH 28' HYDRAULIC BOOM

- Fiberglass tank with hatch and strainer basket
- Mechanical agitation with stainless steel propeller and shaft
- Diaphragm pump produces 23 GPM @ 780 PSI
- Cat. I or II, 3-pt. hitch 540 R.P.M., PTO driven
- Sight gauges in tank and tubing
- Controls are reachable from tractor seat allowing operator to switch liquid from off to right or left spraying
- Optional - manual or hydraulic booms

Model No.	Tank Capacity	Pump Type	Pump GPM	Pump Pressure	Wt.
GN200D-23	200 Gal.	Diaphragm	23	780 PSI	450#

ALL-PURPOSE TRAILER

- Available options:
 - ~ Horizontal Booms
 - ~ Row Line Booms
 - ~ Hose/Reel/Handgun

- Available in trailer mount
- 8 H.P. Honda engine
- Reinforced polyethylene tank w/2 hatches
- Screw type, pin away tongue jack
- 3 Piston diaphragm pump, produces 14 GPM at maximum pressure
- Pressure regulator w/manual controls reachable from seat
- Trailer tire size is 20 x 10.00- 6 ply
- Unique rear rail system for mounting many spraying attachments

Model No.	Type	Width	Length	Height	Wt.
GPE800	Trailer	54"	102"	48"	490#

Our sprayer offers the latest design in an **All Purpose Sprayer**. The low profile polyethylene tank has a full length stainless steel agitation system and a large hatch with shower head to easily put wettable powder into suspension. An additional water filling hatch is included to keep chemicals from being splashed while filling. The sprayer can be used as a horizontal boom, row line boom, and/or hose/reel/handgun sprayer. The applications for this sprayer are endless - municipalities, golf courses, nurseries, farms, ranches, etc.
